LAW FIRM, P.C.

GREEN POLICY

2024

At our law firm, respect for our environment and minimizing waste has a high priority. We wanted to share 7 of the simple actions we take so that you can adopt your own measures to incorporate sustainable practices into your business.

CLARK-ESPOSITO
LAW FIRM, P.C.

7 Steps to Sustainable Business Practices

1

Have an office mug for daily use so use of a disposable cup is avoided

2

Purchase office furniture previously used in another office so it may be repurposed rather than sent to a landfill, like our chairs

3

Purchase office supplies with a lower impact on the planet, such as our Earth Choice paper which is Rainforest Alliance certified, and the company sources paper from responsible sources in accordance with FSC principles and criteria (www.fsc.org)

4

Print only when necessary and double-sided

5

Use discarded one-sided paper as "scratch paper"

6

Recycle discarded paper (shredded of course!)

7

Recycle cardboard, plastics and other recyclable materials

CLARK-ESPOSITO

LAW FIRM, P.C.

The Clark Esposito Law Firm Difference
